

Lesson 3: Analyze Purpose, Point of View, and Structure: Corn in Our Food

Presentations

- Lesson 3: Analyze Purpose, Point of View, and Structure: Corn in Our Food

Standards

8R1:

8R4:

8R5:

8R6:

RST3:

Learning Targets

I can analyze the author's purpose and point of view in a text and explain how he acknowledges conflicting viewpoints. (8R6)

I can identify the structure of a specific paragraph in a text and explain how it develops a key concept.

Ongoing Assessment

Opening A: Entrance Ticket: Unit 1, Lesson 3 (8R6)

Work Time A: Gist on sticky notes

Work Time A: Purpose and Point of View: *The Omnivore's Dilemma* note-catcher (8R6)

Closing and Assessment A: Exit Ticket: Unit 1, Lesson 3

Agenda

Opening

Engage the Learner (5 minutes)

Work Time

Read The Omnivore's Dilemma, Section 2, and Analyze Purpose and Point of View (15 minutes)

Mini Lesson: Analyze Paragraph Structure (20 minutes)

Closing and Assessment

Exit Ticket: Paragraph Structure: The Omnivore's Dilemma, Section 2 (5 minutes)

Homework

Analyze Purpose and Point of View

Preread Anchor Text

Teaching Notes

Purpose of lesson and alignment to standards

8R6 – Opening A: Students complete an entrance ticket on the function of a paragraph.

8R6, RST3 – Work Time A: Students read section 2 of *The Omnivore's Dilemma* and determine the author's purpose and point of view.

Work Time B: Students analyze paragraph structures and how sentences in paragraphs develop key concepts in the text.

Closing and Assessment A: Students answer questions focused on paragraph structure in Section 2 of *The Omnivore's Dilemma* on an exit ticket.

The Think-Pair-Share and Back-to-Back and Face-to-Face protocols are used in this lesson. Protocols are an important feature of the curriculum because they are one of the best ways we know to engage students in discussion, inquiry, critical thinking, and sophisticated communication. A protocol consists of agreed-upon, detailed guidelines for reading, recording, discussing, or reporting that ensure equal participation and accountability in learning.

Opportunities to Extend Learning

Students could read chapters 1, 2, and 3 of *The Omnivore's Dilemma* and analyze the author's point of view on other topics in the text.

Students can conduct an internet search on the ingredients derived from corn mentioned on page 19 (e.g., MSG, glucose syrup, xanthan gum).

Students can conduct an internet search to find more information about farmers and agribusinesses. They can locate short videos, interviews, and articles about the profits from industrial farming and the impact on farmers. Students can then write a reflection on their own point of view on agribusiness.

Students may find more information about Monsanto and conflicting viewpoints about their GMO seeds and share this in small groups or with the whole class. Students can then participate in an organized discussion (e.g., Socratic Seminar) to exchange ideas about their research findings and opinions.

If time permits, have students analyze the way the author implies that the *integrity* of seed companies is questionable. Display the Work to Become Ethical People anchor chart to review *integrity*, and ask:

"How do you think the author feels about agribusiness?" (It is not fair that seed companies profit while farmers struggle to feed their families.)

"The author describes how farmers only receive government subsidies to grow corn, but corn is sold for less than the cost to grow the crop. What do you think the author feels is the 'right' thing to do?" (Responses will vary, but may include: offer more subsidies to farmers, lower the price of GMO seeds, offer subsidies to grow other crops.)

How this lesson builds on previous work:

In the previous lesson, students analyzed the author's purpose and point of view in ***The Omnivore's Dilemma***. In this lesson, students continue this work, as well as analyze paragraph structures and how they develop key concepts in the text.

Students also answer selected response questions on the author's purpose and point of view for homework, which builds upon their learning in the previous lesson.

Support All Students:

Note that section 2 of *The Omnivore's Dilemma* brings up the idea that there is corn in most processed food that people eat, hidden within the ingredient lists. It notes that because of government subsidies, the price of corn stays cheap and farmers make less money, leading to bigger farms with fewer farmers and other effects, such as more fertilizer being used. It also brings up the concept of genetically modified organisms, or GMOs, and the fact that some people believe these are dangerous to consume. Some students and their families may have differing opinions from what Pollan suggests or may find these topics new or challenging based on their own knowledge and eating or shopping habits. Allow for time to process and respond to these topics during individual, small group, or full class discussion, and reach out to families as needed. Use thoughtful strategic pairing for discussions around these topics to ensure that all students feel comfortable.

In Work Time A, provide choice in how students read the excerpt: some students may prefer to read independently and silently, while others (especially ELLs) may wish to read aloud in groups with peers and/or with support. Still others may wish to read silently for a few pages and then process with a group. This format of choice could potentially be built into the reading time within each lesson.

As in previous lessons, in Work Time A, present additional options for recording gist rather than just the sticky note, such as using a separate notebook, using a graphic organizer, using highlighters and annotating, or using a voice recorder. Give students options for expressing their understanding of gist (oral, written, drawing). Also, build in different options for expressing comprehension of the text (written reflection, voice recording, discussion with partners/groups).

Students may need support in understanding the concept of GMOs and hybrid plants. Consider showing images or videos to provide visual examples of how scientists use technology to create these seeds. It may also benefit students to see before and after images of original foods and the hybrid foods that result from genetic engineering to better understand this process.

When pairing students to answer selected and constructed response questions in Closing and Assessment A, group ELLs with partners who have more advanced or native language proficiency. The partners with greater language proficiency can serve as a model, initiating discussions and providing implicit sentence frames, for example. Use the same pairing in future lessons if this pairing is successful. This will support students in building trust and becoming more comfortable and confident with their peers.

In later grades, students will analyze how an author's ideas or claims are refined by particular sentences, paragraphs, or larger portions of a text. Students might choose a longer text, perhaps the entirety of *The Omnivore's Dilemma*, and write an analysis of how the author uses longer portions of text to refine his argument.

In high school, students will analyze how an author or speaker uses rhetoric to advance that point of view or purpose. Students might analyze the use of rhetoric (the art of effective or persuasive speaking or writing, especially the use of figures of speech and other compositional techniques) within *The Omnivore's Dilemma*.

Assessment guidance:

As students work in pairs to answer selected response questions in Closing and Assessment A, listen to student discussions to determine how close students are to understanding how to answer questions related to to determine any common issues that could be used as teaching points for the whole group.

Check student vocabulary logs for accountability in recording vocabulary.

Check gist statements to ensure students are recording quick notes about what the text is mostly about.

Review students' exit tickets after the lesson to identify common issues in analyzing structure to use as teaching points for upcoming lessons on structure. See the Exit Ticket: Unit 1, Lesson 3 (answers for teacher reference).

Down the road:

In the next lesson, students will continue reading *The Omnivore's Dilemma*. They will also delineate and evaluate the arguments in the text, assessing whether the reasoning is sound and the evidence is relevant and sufficient.

In advance:

Prepare:

Entrance Ticket: Unit 1, Lesson 3 (one per student)

Exit Ticket: Unit 1, Lesson 3 (one per student)

Ensure there is a copy of Entrance Ticket: Unit 1, Lesson 3 at each student's workspace.

Post the learning targets and applicable anchor charts (see Materials list).

Preread the text sections for today's lesson, and review the Text Guide to ensure understanding of the material and content.

For the reading in Work Time A, choose certain sections to read aloud and sections students can read (or work with the synopsis) more independently. Ensure that students who read independently have a full understanding of how to identify key details in a text.

Technology & Multimedia

Continue to use the technology tools recommended throughout previous modules to create anchor charts to share with families; to record students as they participate in discussions and protocols to review with students later and to share with families; and for students to listen to and annotate text, record ideas on note-catchers, and word-process writing.

Supporting English Language Learners

Important points in the lesson itself

To support ELLs, this lesson follows a similar structure to that of the previous lesson. Students engage in supported in-class reading of the anchor text, *The Omnivore's Dilemma*, and answer selected and constructed response questions about the author's purpose and point of view. Students also participate in a mini lesson on paragraph structure to consider how different types of paragraphs are used to present information within a text. This work will help to prepare students for the upcoming Mid-Unit 1 Assessment.

ELLs may find it challenging to distinguish between different types of paragraphs, as this requires attention to nuance and the relationship between language usage and an author's intention. Support students by breaking down paragraphs as much as possible to consider the intended meaning of each sentence. Encourage students to discuss the particular strategies they employ for determining types of paragraphs, author's purpose, and elements of an argument.

Vocabulary

yield, subsidy, structure, conflicting viewpoint, concept (A)
narrative paragraph, high-fructose corn syrup, GMO foods, expository paragraph,
descriptive paragraph, compare/contrast paragraph (DS)

Lesson 3: Analyze Purpose, Point of View, and Structure: Corn in Our Food

Description

Teach, Lesson 3: Analyze Purpose, Point of View, and Structure: Corn in Our Food to your students with this slide presentation. If you want to edit these slides click on the Edit toggle and then click on the presentation. If you just want to browse the slides, you can click directly on the presentation.

Presentation

- Lesson 3: Analyze Purpose, Point of View, and Structure: Corn in Our Food

Text Activity: Text Guide: Lesson 3, Section 2

Lesson 3, Section 2

Pages 17–19, beginning with "The average supermarket . . .," and ending with ". . . fried in was corn oil."

Pages 34–36, beginning with "Back when George's grandfather . . .," and ending with ". . . natural order of things."

Pages 46–49, beginning with "The industrial food chain . . .," and ending with ". . . paid for part of it."

Pause to define the following vocabulary and ask the following questions as needed.

Vocabulary

yield (34): produce or provide

GMO foods (36): any food whose DNA has been changed using technology

bonanza (36): a situation or event that creates a sudden increase in wealth, good fortune, or profits

subsidy (46): a sum of money granted by the government or a public body to assist an industry or business so that the price of a commodity or service may remain low or competitive

Questions

page 34 "But the 'children' of that crop . . ."

What are the advantages and disadvantages of hybrid plants? Answers will vary, but may include: **they produce more crops per acre, but the products of these hybrid plants do not have the same good qualities.**

page 36 "Even if farmers face hard times . . ."

How do agribusinesses profit from farmers? Answers will vary, but may include: **in order to continue to produce hybrid plants with good traits, farmers have to keep buying seeds from seed companies.**

page 49 "Prices go lower, but the mountain of corn . . ."

Why aren't farmers making money? Answers will vary, but may include: **They receive checks from the government to only grow corn, but the price of corn is lower than the cost of growing corn. They are not paid to grow other crops.**

Entrance Ticket: Unit 1, Lesson 3

Directions

As you enter class, answer the following question.

QUESTION 1

4 points Written Response

What job does a paragraph do in an informational text?

Note for Evaluating Responses

organizes ideas and gives the reader information

Author's Purpose and Point of View: The Omnivore's Dilemma Note-Catcher

QUESTION 1

4 points Fill in the Blank

As you read *The Omnivore's Dilemma*, analyze the author's purpose and point of view on different topics on food choices.

Section , Page	
What topic is the author addressing in this excerpt? 	
Author's Point of View What is the author's attitude toward this topic? 	Evidence of Author's Point of View What words or ideas from the excerpt helped you determine that point of view?
Author's Purpose What is the author's reason for writing this? 	Understanding How does the author's point of view add to our understanding of this topic?

	•	
Author's Purpose What is the author's reason for writing this? 	•	Understanding How does the author's point of view add to our understanding of this topic?

Note for Evaluating Responses

Section, Page

What topic is the author addressing in this excerpt?

Author's Point of View What is the author's attitude toward this topic?	Evidence of Author's Point of View What words or ideas from the excerpt helped you determine that point of view?
Author's Purpose What is the author's reason for writing this? where our food comes from and what is in it	Understanding How does the author's point of view add to our understanding of this topic? how complicated the omnivore's dilemma is

Section 1, Page 11

What topic is the author addressing in this excerpt?

The way we get information about our food today

Author's Point of View What is the author's attitude toward this topic? Our food choices are more confusing now and we don't know whom to listen to.	Evidence of Author's Point of View What words or ideas from the excerpt helped you determine that point of view? • experts • People knew about food because they grew it or hunted it themselves. • worrying
Author's Purpose What is the author's reason for writing this? To prove to the reader that we have an "omnivore's dilemma" in how to make good food choices	Understanding How does the author's point of view add to our understanding of this topic? Helps us understand that we do not have firsthand knowledge of where our food

	comes from
Section <u>2</u> , Page <u>49</u> What topic is the author addressing in this excerpt? Source of cheap food	
Author's Point of View What is the author's attitude toward this topic? The cheap food Americans pay for is not cheap at all because their taxes pay for it through subsidies.	Evidence of Author's Point of View What words or ideas from the excerpt helped you determine that point of view? • problem • but • don't really • hidden costs
Author's Purpose What is the author's reason for writing this? To educate readers about the hidden costs in agribusiness and how it affects farmers.	Understanding How does the author's point of view add to our understanding of this topic? Helps us understand why farmers do not make a lot of money from their crops
Section <u>3</u> , Page <u>76</u> What topic is the author addressing in this excerpt? Cows as machines	
Author's Point of View What is the author's attitude toward this topic? Industrial feedlots treat cattle as a machine for turning corn into beef.	Evidence of Author's Point of View What words or ideas from the excerpt helped you determine that point of view? • I realized once again • That is one way of looking at it.
Author's Purpose What is the author's reason for writing this? To show how cattle are mistreated in industrial farming	Understanding How does the author's point of view add to our understanding of this topic? Helps us understand that whatever happens to cows (how they are treated or fed) impacts us and the environment
Section <u>4</u> , Page <u>89</u>	

What topic is the author addressing in this excerpt?

"added value" in foods—vitamins

Author's Point of View

What is the author's attitude toward this topic?

Companies change foods in various ways so they can sell us more of them.

Evidence of Author's Point of View

What words or ideas from the excerpt helped you determine that point of view?

- **We need an apple that fights cancer!**
- **any old chicken**
- **removed**

Author's Purpose

What is the author's reason for writing this?

To explain how companies manipulate consumers into believing they add value to our food

Understanding

How does the author's point of view add to our understanding of this topic?

Helps us understand how companies make money and why foods are appealing to us

Section **4**, Page **91-93**

What topic is the author addressing in this excerpt?

Eating more food

Author's Point of View

What is the author's attitude toward this topic?

Companies convince us to eat more food, which causes obesity and diabetes.

Evidence of Author's Point of View

What words or ideas from the excerpt helped you determine that point of view?

- **scheme**
- **killing us**
- **supersized meals**
- **awful lot**

Author's Purpose

What is the author's reason for writing this?

To inform readers about the dangers of overeating and why we overeat

Understanding

How does the author's point of view add to our understanding of this topic?

Helps us understand the effect processed foods have on our body and our health

Section **4**, Page **99-100**

What topic is the author addressing in this excerpt?

Government and public health

Author's Point of View

What is the author's attitude toward this topic?

Evidence of Author's Point of View

What words or ideas from the excerpt helped you determine that point of view?

- **mixed messages**

The government is not consistent in how it supports healthy eating.	
Author's Purpose What is the author's reason for writing this? To show the government's role in the health crisis in America	Understanding How does the author's point of view add to our understanding of this topic? Helps us understand why the government funds high-calorie foods more than healthy foods

Section 5, Page 153-154

What topic is the author addressing in this excerpt?
Benefits of organic food

Author's Point of View What is the author's attitude toward this topic? Although it is not scientifically proven, organic food is probably better for you.	Evidence of Author's Point of View What words or ideas from the excerpt helped you determine that point of view? • I think the answer is yes. • I can't prove it. • I know.
Author's Purpose What is the author's reason for writing this? To compare the nutrition and taste of organic food with non-organic food	Understanding How does the author's point of view add to our understanding of this topic? Helps us understand why people make choices, despite the higher cost, to buy organic food

Section 6, Page 178

What topic is the author addressing in this excerpt?
Working on a local farm

Author's Point of View What is the author's attitude toward this topic? Local sustainable farming is a lot of work.	Evidence of Author's Point of View What words or ideas from the excerpt helped you determine that point of view? • the more weary you feel • left me bone tired
Author's Purpose What is the author's reason for writing this? To point out how labor-intensive it is to farm well and sustainably.	Understanding How does the author's point of view add to our understanding of this topic? Helps us understand how difficult local farming is and why industrial farming is faster and easier.

Section 6, Page 192

What topic is the author addressing in this excerpt?

Industrial farmers

Author's Point of View

What is the author's attitude toward this topic?

Industrial farmers are more concerned with money than conditions for animals.

Evidence of Author's Point of View

What words or ideas from the excerpt helped you determine that point of view?

- **don't worry**
- **forcing cows**
- **even when it is unnatural**

Author's Purpose

What is the author's reason for writing this?

To demonstrate how local farms treat animals better than industrial farms.

Understanding

How does the author's point of view add to our understanding of this topic?

Helps us understand the difference between industrial farming and local sustainable farming

Section 7, Page 214-215

What topic is the author addressing in this excerpt?

Paying more for better food

Author's Point of View

What is the author's attitude toward this topic?

Many Americans are unwilling to pay more for better food.

Evidence of Author's Point of View

What words or ideas from the excerpt helped you determine that point of view?

- **Still, whatever the reason,**
- **mixed priorities; pay for other pricey things, just not food**
- **unwilling**

Author's Purpose

What is the author's reason for writing this?

To show how people think about the value and cost of organic food.

Understanding

How does the author's point of view add to our understanding of this topic?

Helps us understand how people prioritize their spending and food choices

Conflicting Viewpoint

Section 2, Page 49

What topic is the author addressing in this excerpt?

Source of cheap food

Conflicting Viewpoint What is the conflicting viewpoint that is addressed in this section? Cheap corn produces cheap food for Americans.	Author's Response How does the author respond to the conflicting viewpoint? Points out that food is not actually cheap because American taxes pay for the government subsidies used to produce the cheap corn
--	---

Section 3, Page 65

What topic is the author addressing in this excerpt?
Corn-fed beef

Conflicting Viewpoint What is the conflicting viewpoint that is addressed in this section? Cattle should be fed corn.	Author's Response How does the author respond to the conflicting viewpoint? Points out that cattle raised on corn mature more quickly and can be sold for beef earlier, which benefits the industrial farmer, yet cattle have stomachs evolved to eat grass, and eating a diet of grass makes them take longer to mature
---	--

Section 4, Page 89

What topic is the author addressing in this excerpt?
Added value

Conflicting Viewpoint What is the conflicting viewpoint that is addressed in this section? Adding nutritional value to foods is good for the health of consumers.	Author's Response How does the author respond to the conflicting viewpoint? Explains that foods naturally contain nutritional value, but companies remove the nutrition when they process these foods
---	---

Section 6, Page 192

What topic is the author addressing in this excerpt?
Industrial farmers

Conflicting Viewpoint What is the conflicting viewpoint that is addressed in this section? The goal of farming is production and profit.	Author's Response How does the author respond to the conflicting viewpoint? Points out that honoring the way animals live naturally is important
--	--

--	--	--

Exit Ticket: Unit 1, Lesson 3

Directions

Answer the following questions about paragraph structure in *The Omnivore's Dilemma*.

QUESTION 1

4 points Multiple Choice 

In paragraph 2 on page 36, beginning with "These new GMO seeds . . .," what type of paragraph structure does the author use?

- ☐ A Narrative
- ☐ B Descriptive
- ☐ C Compare/Contrast
- ☒ D Expository/Explanatory

QUESTION 2

4 points Multiple Choice 

How does the following sentence contribute to developing the concept of food choices?

"They believe that GMOs are a reckless experiment with the natural order of things" (36).

- ☐ A by providing the author's opinion on the use of GMOs
- ☐ B by providing an analysis of corporations that sell corn
- ☒ C by providing a reason to oppose industrial farming
- ☐ D by providing a definition of industrial farming

Homework: Analyze Author's Purpose and Point of View: The Omnivore's Dilemma, Section 2

Directions

Answer the following questions about the author's purpose and point of view in pages 34–36 and 46–49 of *The Omnivore's Dilemma*.

QUESTION 1

4 points Multiple Choice 

On page 34, how does the author respond to the seed companies' conflicting viewpoint that hybrid seeds produce hybrid corn?

- ☐ A by pointing out that seed companies cannot guarantee that hybrid seeds will produce hybrid plants
- ☐ B by pointing out that hybrid seeds are not able to produce hybrid corn like natural seeds produce natural corn
- ☐ C by pointing out that hybrid seeds do not always produce hybrid corn that is resistant to disease
- ☒ D by pointing out that the "children" of hybrid seeds do not have the same yield as the original hybrid seeds

QUESTION 2

4 points Multiple Choice 

What is the author's purpose for writing "Rich Fields, Poor Farmers" on pages 46–49?

- ☐ A to explain the business of agriculture to readers
- ☐ B to promote the importance of corn and soybean crops
- ☒ C to convince readers that farmers are trapped in poverty
- ☐ D to analyze why farmers do not understand agribusiness

For ELLs: Author's Purpose and Point of View: The Omnivore's Dilemma Note-Catcher

QUESTION 1

4 points Fill in the Blank

As you read *The Omnivore's Dilemma*, analyze the author's purpose and point of view on different topics on food choices.

Section , Page	
What topic is the author addressing in this excerpt? <i>Where our food comes from.</i>	
Author's Point of View What is the author's attitude toward this topic? <i>It is important and something we should really think about</i>	Evidence of Author's Point of View What words or ideas from the excerpt helped you determine that point of view? <i>going crazy</i> • <i>worrying</i>
Author's Purpose What is the author's reason for writing this? <i>To educate readers about</i> 	Understanding How does the author's point of view add to our understanding of this topic? • <i>Helps us understand</i>

Government and public health

Author's Point of View

What is the author's attitude toward this topic?

The government is not consistent in how it supports healthy eating.

Evidence of Author's Point of View

What words or ideas from the excerpt helped you determine that point of view?

- **mixed messages**

Author's Purpose

What is the author's reason for writing this?

To show the government's role in the health crisis in America

Understanding

How does the author's point of view add to our understanding of this topic?

Helps us understand why the government funds high-calorie foods more than healthy foods

Section 5, Page 153-154

What topic is the author addressing in this excerpt?

Benefits of organic food

Author's Point of View

What is the author's attitude toward this topic?

Although it is not scientifically proven, organic food is probably better for you.

Evidence of Author's Point of View

What words or ideas from the excerpt helped you determine that point of view?

- **I think the answer is yes.**
- **I can't prove it.**
- **I know.**

Author's Purpose

What is the author's reason for writing this?

To compare the nutrition and taste of organic food with non-organic food

Understanding

How does the author's point of view add to our understanding of this topic?

Helps us understand why people make choices, despite the higher cost, to buy organic food

Section 6, Page 178

What topic is the author addressing in this excerpt?

Working on a local farm

Author's Point of View

What is the author's attitude toward this topic?

Local sustainable farming is a lot of work.

Evidence of Author's Point of View

What words or ideas from the excerpt helped you determine that point of view?

- **the more weary you feel**
- **left me bone tired**

Author's Purpose

Understanding

What is the author's reason for writing this? To point out how labor-intensive it is to farm well and sustainably.	How does the author's point of view add to our understanding of this topic? Helps us understand how difficult local farming is and why industrial farming is faster and easier.
---	--

Section 6, Page 192

What topic is the author addressing in this excerpt?
Industrial farmers

Author's Point of View What is the author's attitude toward this topic? Industrial farmers are more concerned with money than conditions for animals.	Evidence of Author's Point of View What words or ideas from the excerpt helped you determine that point of view? • don't worry • forcing cows • even when it is unnatural
Author's Purpose What is the author's reason for writing this? To demonstrate how local farms treat animals better than industrial farms.	Understanding How does the author's point of view add to our understanding of this topic? Helps us understand the difference between industrial farming and local sustainable farming

Section 7, Page 214-215

What topic is the author addressing in this excerpt?
Paying more for better food

Author's Point of View What is the author's attitude toward this topic? Many Americans are unwilling to pay more for better food.	Evidence of Author's Point of View What words or ideas from the excerpt helped you determine that point of view? • Still, whatever the reason, • mixed priorities; pay for other pricey things, just not food • unwilling
Author's Purpose What is the author's reason for writing this? To show how people think about the value and cost of organic food.	Understanding How does the author's point of view add to our understanding of this topic? Helps us understand how people prioritize their spending and food choices

Conflicting Viewpoint

Section 2, Page 49

What topic is the author addressing in this excerpt?

Source of cheap food

Conflicting Viewpoint

What is the conflicting viewpoint that is addressed in this section?

Cheap corn produces cheap food for Americans.

Author's Response

How does the author respond to the conflicting viewpoint?

Points out that food is not actually cheap because American taxes pay for the government subsidies used to produce the cheap corn

Section 3, Page 65

What topic is the author addressing in this excerpt?

Corn-fed beef

Conflicting Viewpoint

What is the conflicting viewpoint that is addressed in this section?

Cattle should be fed corn.

Author's Response

How does the author respond to the conflicting viewpoint?

Points out that cattle raised on corn mature more quickly and can be sold for beef earlier, which benefits the industrial farmer, yet cattle have stomachs evolved to eat grass, and eating a diet of grass makes them take longer to mature

Section 4, Page 89

What topic is the author addressing in this excerpt?

Added value

Conflicting Viewpoint

What is the conflicting viewpoint that is addressed in this section?

Adding nutritional value to foods is good for the health of consumers.

Author's Response

How does the author respond to the conflicting viewpoint?

Explains that foods naturally contain nutritional value, but companies remove the nutrition when they process these foods

Section 6, Page 192

What topic is the author addressing in this excerpt?

Industrial farmers

Conflicting Viewpoint

What is the conflicting viewpoint that is addressed in this section?

The goal of farming is production and profit.

Author's Response

How does the author respond to the conflicting viewpoint?

Points out that honoring the way animals live naturally is important

Opening A: Engage the Learner

Description

Repeated routine: As students arrive, invite them to complete **Entrance Ticket: Unit 1, Lesson 3**.

Repeated routine: Follow the same routine as the previous lessons to review learning targets and the purpose of the lesson, reminding students of any learning targets that are similar or the same as previous lessons.

With students' support, record the meanings of *conflicting viewpoint* (a perspective that is different from or disagrees with another; the opposition), *concept* (a big idea), and *structure* (the way in which the parts of something are arranged or organized) from the learning target to the **academic word wall**, with translations in students' home languages. Write synonyms or sketch a visual above the words to scaffold students' understanding.

Invite students to record the words in their **vocabulary logs**. Prompt students to use the words in new sentences by either writing these sentences down or thinking of these sentences silently, then sharing with a partner. Add any relevant notes to the vocabulary strategies on the **Close Readers Do These Things anchor chart**.

Meeting Students' Needs

For heavier support:

After students complete the entrance ticket, help them to refine their understanding of what a paragraph is and does by engaging the class in a discussion of the characteristics of paragraphs. Provide the following questions to help guide thinking:

How many sentences are usually in a paragraph? (anywhere from two to ten)

Why do writers use paragraphs? (to organize information in a way that helps the reader follow his or her ideas)

How do writers decide when to begin a new paragraph? (when they are moving on to discuss a new topic, theme, or idea)

Work Time A: Read The Omnivore's Dilemma, Section 2, and Analyze Purpose and Point of View

Description

Review the learning target relevant to the work to be completed in this section of the lesson:

"I can analyze the author's purpose and point of view in a text and explain how he acknowledges conflicting viewpoints."

Invite students to retrieve their copies of *The Omnivore's Dilemma* and reread the gist they recorded for section 1.

Instruct students to turn to **page 17**.

Read aloud section 2 as students read along silently. Refer to the **Text Guide: The Omnivore's Dilemma (for teacher reference)** for excerpt, questions, and vocabulary. If students are able to read independently or in small groups, group students accordingly, and set the time for them to read the excerpt. If students do not finish reading the section within the allotted reading time, distribute **Synopsis: The Omnivore's Dilemma, Section 2** to each student to review the key details from the section.

After reading the section, ask students to Think-Pair-Share about the gist they determined for the section of text:

"What is the gist of this section?" (Agribusinesses make major profits from farming.)

Invite students to record the gist onto a **sticky note**, sticking it at the front of the chapter for quick reference. Alternatively, give students a different option for recording gist, such as writing a margin note or using a graphic organizer that they will return to in the future.

Guide students to form partners to engage in the Back-to-Back and Face-to-Face protocol on the following questions:

"What is your reaction to the information in this excerpt?" (Responses will vary but may include: shock, disgust, disappointment, or interest in agribusiness, GMOs, corn.)

"What are you interested to learn more about now?" (Responses will vary, but may include: how corn is in most of our food, how GMOs are made, the lives of farmers.)

"When you go to the supermarket, what do you usually focus on?" (Responses will vary, but may include: locating my favorite foods, the price of foods.)

"How might this new information about our food change what you focus on in the supermarket?" (Responses will vary, but may include: focus on the ingredients or nutrition facts or GMO label.)

Display the **Author's Purpose and Point of View: The Omnivore's Dilemma note-catcher**, and instruct students to retrieve their copies.

Have students turn to **page 49**. Reread "The High Price of Cheap Corn."

Draw students' attention to the following sentence:

"Doesn't it produce cheap food for the American people?"

Ask:

"Why do you think the author addresses the importance of 'cheap food' for the public?" (to point out that people want to pay less for food, people want cheap food)

Using **equity sticks**, call on students and ask the following questions from the note-catcher:

"What topic is the author addressing?" (source of cheap food)

"What is the author's attitude toward this topic?" (The cheap food Americans pay for is not cheap at all because their taxes pay for it through subsidies.)

"What is the author's reason for writing this?" (to educate readers about the hidden costs in agribusiness and how it affects farmers)

"What words or ideas from the excerpt helped you determine that point of view?" (problem, but, don't really)

"How does the author's point of view add to our understanding of this topic?" (helps us understand why farmers do not make a lot of money from their crops)

As students share, record their responses on the displayed **Purpose and Point of View: *The Omnivore's Dilemma* note-catcher**. Instruct students to follow along and record responses on their own note-catchers. Refer to **Author's Purpose and Point of View: *The Omnivore's Dilemma* note-catcher (example for teacher reference)**.

Remind students that they defined the term *conflicting viewpoint* (a perspective that is different from or disagrees with another; the opposition) in Opening A. Ask a volunteer to reread the definition aloud.

Explain to students that the author introduces his viewpoint in the text, and, sometimes, the author may respond to a conflicting viewpoint as well.

Ask:

"Why would the author address a conflicting viewpoint?" (The author anticipates where the reader might disagree and wants to provide additional evidence or reasons to support his point. The author knows that the reader might have a different opinion and wants to respond.)

"How does addressing a conflicting viewpoint help the author support his own thinking?" (It gives the author a chance to explain why he disagrees with the conflicting viewpoint.)

Draw students' attention to the following sentence:

"Your soft drink and hamburger may be cheaper, but that's because taxpayers have already paid for part of it."

Ask:

"What is the conflicting viewpoint that is addressed in this section?" (Cheap corn produces cheap food for Americans.)

"How does the author respond to the conflicting viewpoint?" (by pointing out that food is not actually cheap because American taxes pay for the government subsidies used to produce the cheap corn)

As students share, record their responses at the bottom section of the displayed **Purpose and Point of View: *The Omnivore's Dilemma* note-catcher**, under "Conflicting Viewpoint." Note the page number and topic, the viewpoint the author addresses, and the author's conflicting viewpoint. Instruct students to follow along and record responses on their own note-catchers.

Refer to **Author's Purpose and Point of View: *The Omnivore's Dilemma*** note-catcher (example for teacher reference).

Repeated routine: Invite students to reflect on their progress toward the relevant learning target.

Meeting Students' Needs

For lighter support:

During Work Time A, as students read section 2 of *The Omnivore's Dilemma*, have them stop after each paragraph to paraphrase the information they have read. This will help to build comprehension, while also giving students the opportunity to practice paraphrasing and speaking skills.

Work Time B: Mini Lesson: Analyze Paragraph Structure

Description

Review the learning target relevant to the work to be completed in this section of the lesson:

"I can identify the structure of a specific paragraph in a text and how it develops a key concept."

Using equity sticks, call on a student, and ask:

"What do you think you will look at when you analyze paragraph structure in a text?" (the way the paragraph is put together, the organization of sentences, relationship between sentences)

Explain to students that the structure of paragraphs is purposeful and that sentences within paragraphs help develop an idea. Remind students that when they write, they structure their paragraphs to support their points. Throughout *The Omnivore's Dilemma*, students will analyze the structure of paragraphs and how these structures help develop key ideas in the text.

Display the Paragraph Structure Anchor Chart.

Explain to students that there are many types of paragraphs, but they will focus on four types: Compare/Contrast, Descriptive, Narrative, and Expository/Explanatory.

Focus students on Part I of the anchor chart. Read aloud or ask volunteers to read aloud each paragraph type and definition.

With students' support, record the meanings of *compare/contrast paragraph* (paragraph that analyzes similarities and differences), *descriptive paragraph* (paragraph that describes something using sensory language or an observation of details), *narrative paragraph* (paragraph with a story sequence), and *expository/explanatory paragraph* (paragraph that explains a topic) on the **domain-specific word wall**, with translations in students' home languages. Write synonyms or sketch a visual above the words to scaffold students' understanding. Invite students to record these words in their vocabulary logs.

Focus students on Part II of the anchor chart.

Inform students that they will practice identifying types of paragraphs. They will also start to identify key concepts introduced by these paragraphs and sentences that develop those key concepts.

Instruct students to turn to **page 11**. Focus students on paragraph 1. Ask a volunteer to reread the paragraph.

Ask:

"What type of paragraph is this?" (compare/contrast)

"How do you know this is a compare/contrast paragraph?" (It compares/contrasts food traditions and Modern American experts on food.)

As students share, record their responses in the second column, "Type of Paragraph." See the **Paragraph Structure anchor chart (example for teacher reference)**.

Read aloud the selected sentence from this paragraph in the third column of the **Paragraph Structure anchor chart**. Explain that the sentence develops the concept that people do not

know where our food comes from, which creates the "omnivore's dilemma."

Instruct students to turn to **page 17**. Focus students on paragraph 2. Ask a volunteer to reread the paragraph.

Ask:

"What type of paragraph is this?" (descriptive)

"How do you know this is a descriptive paragraph?" (It is a description of a supermarket.)

As students share, record their responses in the second column, "Type of Paragraph." See the **Paragraph Structure anchor chart (example for teacher reference)**.

Using **equity sticks**, call on a student, and ask:

"What sensory language does the author use to describe a supermarket?" ("shelves piled high," "look again," "brightly colored," "mountain of corn")

"What is the purpose of the author using this sensory language?" (to create a mental image for the reader)

Read aloud the selected sentence from this paragraph in the third column of the **Paragraph Structure anchor chart**. Explain that the sentence appeals to the sense of sight to help readers imagine what the supermarket looks like and how most foods contain corn.

Instruct students to turn to **page 34**. Focus students on paragraph 1. Ask a volunteer to reread the paragraph.

Ask:

"What type of paragraph is this?" (narrative)

"How do you know this is a narrative paragraph?" (It tells a story about George's grandfather.)

As students share, record their responses in the second column, "Type of Paragraph." See the **Paragraph Structure anchor chart (example for teacher reference)**.

Tell students that this paragraph uses sequence to tell a brief story of the author's food investigation.

Using **equity sticks**, call on a student, and ask:

"Which words or terms in this paragraph indicate that there is a sequence of events?" ("the very beginning," "first," and "then")

Read aloud the selected sentence from this paragraph in the third column of the **Paragraph Structure anchor chart**. Explain that the sentence develops the idea of the author working as a food detective by providing the reader with the history of farmers and seeds.

Instruct students to turn to **page 35**. Focus students on paragraph 3. Ask a volunteer to reread the paragraph.

Ask:

"What type of paragraph is this?" (expository/explanatory)

"How do you know this is an expository/explanatory paragraph?" (It gives information about hybrid corn.)

As students share, record their responses in the second column, "Type of Paragraph." See the **Paragraph Structure anchor chart (example for teacher reference)**.

Read aloud the selected sentence from this paragraph in the third column of the **Paragraph Structure anchor chart**. Explain that the sentence provides data to inform the reader about hybrid corn plants.

Using **equity sticks**, call on a student, and ask:

"How do statistics help develop an expository/explanatory paragraph?" (They help us measure information using numbers and understand how much something is affected.)

If productive, use a Goal 2 Conversation Cue to encourage students to listen carefully to one another and seek to understand the paragraph structure of this excerpt from *The Omnivore's Dilemma*:

"Who can tell us what your classmate said in your own words?"

"Can you give an example?"

Repeated routine: Invite students to reflect on their progress toward the relevant learning target.

Meeting Students' Needs

For heavier support:

After the mini lesson on paragraph structure in Work Time B, invite students to look for other examples of the different types of paragraphs. Students can share their examples with the group and work together to use the criteria generated on the paragraph structure anchor chart to explore the structure of each one.

Closing and Assessment A: Exit Ticket: Paragraph Structure: The Omnivore's Dilemma, Section 2

Description

Review the learning target relevant to the work to be completed in this section of the lesson:

"I can analyze the structure of a specific paragraph in a text and how it develops a key concept."

Tell students that they will answer a selected and a constructed response question about structure. Review the **Strategies to Answer Selected Response Questions anchor chart** if needed. Display and distribute **Exit Ticket: Unit 1, Lesson 3**, and read the questions aloud. Invite students to respond to the questions on their own. Refer to the **Exit Ticket: Unit 1, Lesson 3 (answers for teacher reference)**.

Repeated routine: Invite students to reflect on their progress toward the relevant learning target.

Collect exit tickets as students leave.

Homework A: Analyze Purpose and Point of View

Description

Students answer selected response questions to complete **Homework: Analyze Author's Purpose and Point of View: *The Omnivore's Dilemma*, Section 2.**

Homework B: Preread Anchor Text

Description

Students preread section 3 of *The Omnivore's Dilemma* in preparation for reading the section in the next lesson.
